

WHAT DO YOU HAVE TO SAY?

HP Designjet Z6100 Printer series

Halve your time.¹ Double your productivity.

Achieve amazing colour consistency with the new HP Designjet Z6100 Printer series at breakthrough speeds that make it a leader in its own class¹. Whether for indoor signages, posters, fine art reproductions, line art or maps, you'll get prints that are vibrant and rich, fade-resistant² and consistent in print quality. That's multiplied productivity while halving the time¹ and effort—the kind of advantage that is going to put your business on the forefront.

Shorten turnaround times

Fastest speeds in its class¹

As the fastest printer in its class¹, you're assured of print speeds that allow you to take on more jobs. Enjoy maximum speeds of over 1000 sq ft per hour¹ on plain paper (fast mode) and over 250 sq ft per hour on glossy paper (fast mode).

Innovation equals productivity

HP Double Swath Technology guarantees you double the performance in any print mode with its wider print path and higher firing frequency. Together with the revolutionary HP Optical Media Advance Sensor that helps overcome banding issues, you enjoy consistent quality even when printing at top speeds and across different environmental conditions. Moreover, high-capacity 775-ml original HP Ink Cartridges enable high-quality, cost-effective printing with fewer interruptions.

Unattended overnight operations

With the HP dual mode take-up reel³ you can now leave your printer unattended—even overnight—while performing continuous production-volume printing with media support up to 575 ft (like the new HP jumbo rolls). The HP dual mode take-up reel³ smoothly collects printed output by winding face-in or face-out printing media onto a reel that allows further finishing.

Create lasting vivid impressions

Excellent colour quality

HP Vivera pigment inks with HP media produce high-impact prints that are exceptionally fade-resistant, for up to 200 years² (indoor window 1+ years unlaminated, 3+ years laminated). Containing 8 HP Vivera pigment inks in total, our ink system gives you a wide colour gamut for outstanding image quality and detail. In addition, the HP Three-black ink set—matte black, photo black, and light grey—delivers a broad range of blacks and neutral greys with smooth, subtle transitions.

Enjoy crisp print resolutions of up to 2400 x 1200 optimised dpi and 1200 x 1200 input dpi with "Optimisation for Photo Paper" (black and white) option selected for HP Premium Instant-dry Gloss Photo Paper (colour).

High-speed, high-quality results

Get precise, accurate line drawings, graphics and images on banners, fine arts, backlits and over 50 original HP media with HP's innovative printhead design. In addition, its small drop sizes (6 and 4 pl) enable high-quality production-volume printing at high-speed. Together with the in-built intelligence of Original HP printing supplies making the necessary adjustments automatically to optimise print quality, you can be certain that you will achieve consistently outstanding results all the time.

Breakthrough colour accuracy and consistency with HP DreamColor technologies

Split print runs between two or more HP Designjet Z6100 printers and get consistent colours with the embedded spectrophotometer.⁴

You're assured of accurate, consistent colours across HP Designjet Z6100 series printers with the embedded spectrophotometer.⁴ Utilize all your resources and confidently increase your capacity by splitting print runs between two or more printers and seeing consistent colours from them all in the end.

Get consistent colours when reprinting jobs over time regardless of fluctuating environmental conditions.

If you print a job today and then reprint the same job a week or year from now, or if you print long runs, you want to know for a fact that the different prints are going to have the same colours. You also want to be sure that the colour consistency is not affected when there are changes in temperature or humidity to your work environment. HP provides you with that peace of mind. With the spectrophotometer that is embedded within this printer, you can count on print-to-print colour accuracy and consistency.⁴

Easily add new media and get colour accuracy—the creation of ICC profiles is automatic and simple.

Creating ICC profiles can be a complex, manual process with printing, drying, and scanning colour patches using specialised software and expensive hardware. HP's embedded spectrophotometer⁴ and an automated workflow bring simplicity and reliability to accurate profiling and precision printer calibration.⁵

HP Color Center tool effortlessly guides you through colour management and printing.⁶

¹ Faster compared to large-format inkjet printers under US\$25,000 based on the fastest-rated colour speeds, as published by manufacturers as of January 2007. Test methods vary.

Up to twice the performance with better image quality and up to four times the performance with comparable image quality compared to the HP Designjet 5500 Printer series.

² Under certain archival conditions. Display permanence rating for interior displays/away from direct sunlight by HP Image Permanence Lab on a range of HP media. For details: www.hp.com/go/supplies/printpermanence

³ Comes standard on HP Designjet Z6100 60-inch printers only and optional (not included, sold separately) on HP Designjet Z6100 42-inch printers.

⁴ With i1 Color Technology.

⁵ Non-Adobe PostScript printers require the HP Advanced Profiling Solution or a 3rd party RIP that supports media profiling.

⁶ Only available on HP Designjet Z6100ps Printer series.

Key technologies

HP Designjet 5500 Printer series printhead

512 nozzles
per 0.85"*

HP Designjet Z6100 Printer series printhead

2112 nozzles
per 1.8"*

*Maximum number of utilised nozzles will vary depending on print mode

HP Double Swath Technology

With HP Double Swath Technology, the HP Designjet Z6100 Printer series has twice the performance of the HP Designjet 5500 Printer series without sacrificing image quality or product robustness.

Two full-function, synchronised printheads cover twice the area of conventional single printhead systems without compromising on print-quality. The printheads are arranged in an overlapping, staggered pair formation, with the best-aligned nozzles used to ensure continuity between the two printheads. This system effectively doubles the number of nozzles firing from 1056 to 2112 per colour for the rapid finishing of professional colour prints with superb line accuracy.

HP Optical Media Advance Sensor

The first-ever HP Optical Media Advance Sensor allows you to print at top speeds and still get great output results. It's a direct media measurement system that provides accurate, real-time feedback on media advance to the printer. As an improved paper advance control, it helps overcome banding issues while allowing the printer to print at higher speeds and across a range of environmental conditions without compromising image quality. You'll be able to leave the printer unattended—even overnight—for production-volume printing.

HP DreamColor Technologies

Representing a new system of colour sciences, HP DreamColor Technologies allow you to achieve accurate, predictable and consistent colour on various media across a series of digital colour devices. This system of colour displays, printers and technologies will help you create the colour your customers want, every time, by accurately matching your colour from display to printer to press. Seamless integration between applications and devices speeds up your turnaround time and lowers production costs.

HP's embedded spectrophotometer with i1 Color Technology further revolutionises professional colour workflows by automating media profiling. It allows users to automatically generate custom CMYK ICC profiles for their preferred media and provides accurate measurements for printer calibration² that delivers print-to-print and printer-to-printer colour consistency. Also, with the optional HP Advanced Profiling Solution, you can edit and modify existing profiles and create RGB profiles.

Vivera
HP INKS

Brilliant, Enduring Color.

HP Vivera pigment inks

HP Vivera pigment inks offer outstanding image quality and fade resistance on a wide variety of photo and fine art media, along with water resistance on a range of HP creative and specialty media. HP's proprietary Electrosteric Encapsulation Technology optimises the pigment chemistry and ink properties for stability and performance to ensure broad colour gamut, excellent gloss uniformity, and consistent printing.

Extensive media portfolio¹

HP offers a portfolio of photo papers, digital fine art papers, proofing papers, bond and coated papers, and over 50 other HP media. All have been tested with HP 70 Vivera pigment inks to deliver consistent, museum-quality prints that withstand the demands of handling, display and storage expected of professional prints.

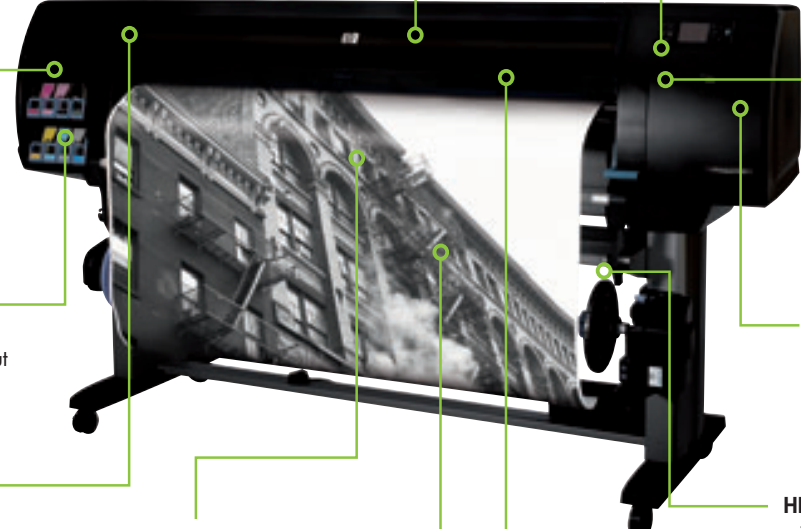

¹ Availability of media varies according to countries.

² Non-Adobe PostScript printers require the HP Advanced Profiling Solution or a 3rd party RIP that supports media profiling.

HP Vivera pigment inks are fade resistant for over 200 years¹

8-ink printing system with HP Vivera pigment inks delivers a wide colour gamut and true neutral greys for outstanding image quality and detail

Software tools like HP Color Center⁶, HP Printer Utility, HP Advanced Profiling Solution and HP ProPrint Plug-in help to streamline and simplify workflows

Wide-format printing with a choice of 42-inch and 60-inch width and with or without PostScript[®]

HP DreamColor Technologies deliver consistent and accurate colour matching across various devices and media

Embedded spectrophotometer with i1 Color Technology helps to ensure accurate, consistent colour

256 MB standard memory² to enable smooth printing even for large files

HP Optical Media Advanced Sensor, the industry's first sensor that helps to overcome banding issues even at top speeds

1 Gigabit ethernet and 1 EIO slot (standard), and high speed USB 2.0 card (optional), for connectivity that is convenient, flexible and expandable

HP dual mode take-up reel³ winds printed media onto a reel in 2 positions: face-in and face-out

HP Double Swath Technology creates print speeds at least 2X faster than its competitors⁴

Optional Accessories

HP Advanced Profiling Solution powered by GretagMacbeth™ technology, offers a powerful and automated, yet cost effective colour management system that works seamlessly with the HP embedded spectrophotometer⁵. It enables an easy-to-use yet sophisticated end-to-end calibrated and colour-managed workflow that saves you time, money and from the hassle of off-line measurement devices. Also included in the box is a monitor calibrator.

HP Designjet Z6100 60-inch/42-inch Spindle enables professional photo and graphic designers to switch between media rolls.

HP Designjet 256 MB Memory Upgrade empowers your printer to handle larger files while maximising print speed.

HP Designjet 42-inch Scanner allows you to maximise your printing device with best scan resolutions of up to 300 x 300 dpi.

HP Designjet 60-inch Media Bin gives you more convenience in sorting out large print jobs.

HP dual mode take-up reel enables long print runs while collecting prints for finishing, improving productivity and saving time.³

HP Jetdirect 630n IPv6 Gigabit Print Server, HP Jetdirect 635n IPv6/IPsec Print Server, HP Designjet High Speed USB 2.0 Card for greater connectivity and accessibility.

¹ Under certain archival conditions. Display permanence rating for interior displays/away from direct sunlight by HP Image Permanence Lab, and by Wilhelm Imaging Research, Inc. on a range of HP media.
² Water resistance and interior in-window display ratings by HP Image Permanence Lab on a range of HP media. For details: www.hp.com/go/supplies/printpermanence

³ Expandable to 512 MB through a 256 MB Designjet-qualified DIMM.

⁴ Comes standard on HP Designjet Z6100 60-inch printers only and optional (not included, sold separately) on HP Designjet Z6100 42-inch printers.

Technical specifications

Print speed¹	
Fast	66.9 m ² /hr (720 sq ft/hr), 42 sec/page on D/A1 (on coated paper) 23.4 m ² /hr (252 sq ft/hr), 2.1 min/page on D/A1 (on glossy paper)
Best	13.7 m ² /hr (147 sq ft/hr), 3.3 min/page on D/A1 (on coated paper) 9.1 m ² /hr (98 sq ft/hr), 5 min/page on D/A1 (on glossy paper)
Maximum	105.4 m ² /hr (1134 sq ft/hr), 35 sec/page on D/A1 (on plain paper)
Print resolution maximum	2400 x 1200 optimised dpi
Memory	256 MB standard memory ² , 40 GB hard disk
Media	
Handling	Roll feed
Types	Bond and coated paper (bond, bright white bond, coated, heavyweight coated, super heavyweight coated), technical paper (natural tracing, vellum), film (clear), photographic paper (gloss, semigloss, satin), proofing paper (high-gloss, semi-gloss, matte), backlit, self-adhesive (indoor paper, polypropylene, vinyl), banner and sign (display film, polypropylene, scrim), fine art printing material (satin canvas, matte canvas, canvas paper, aquarella, watercolour, smooth, textured, litho-realistic)
Weight	Up to 430 g/m ² depending on media type
Size	HP Designjet Z6100/Z6100ps 42-inch Printer: 24 to 42-inch rolls HP Designjet Z6100/Z6100ps 60-inch Printer: 24 to 60-inch rolls
Thickness	Up to 22 mil
Maximum roll length	175 m/575 ft
Printing	
Margins	5 x 5 x 5 x 5 mm/0.2 x 0.2 x 0.2 x 0.2 inches
Technology	HP Thermal Inkjet
Ink cartridge colours	Cyan, magenta, matte black, photo black, yellow, light cyan, light grey, light magenta
Ink types/drop	HP Vivera pigment inks/4 pl (light cyan, light magenta, light grey, photo black), 6 pl (cyan, magenta, yellow, matte black)
Ink cartridge size	775 ml ink cartridges; 775 ml ink cartridge multipacks also available
Nozzles	2 colours per printhead, 1056 nozzles per colour, 16,896 total nozzles
Minimum line width	0.067 mm/0.003 inches
Line accuracy	+/-0.1% ³
Maximum print length	175 m/575 ft (OS and application dependent)
Connectivity	
Interfaces (standard)	One EIO slot, Gigabit Ethernet
Interfaces (optional)	HP Designjet high speed USB 2.0 card, compatible HP Jetdirect LAN cards
Print languages (standard)	HP Designjet Z6100 Printer: HP-GL/2, HP-RTL, TIFF, JPEG, CALS G4 HP Designjet Z6100ps Printer: Adobe PostScript Level 3, Adobe PDF 1.6, HPGL/2, HP-RTL, TIFF, JPEG, CALS G4
Drivers (included)	HP Designjet Z6100 Printer: HP-GL/2, HP-RTL Windows drivers, support for AutoCAD 200x, support for Citrix MetaFrame environments HP Designjet Z6100ps Printer: HP-GL/2, HP-RTL Windows drivers, PS Windows drivers, support for AutoCAD 200x, support for Citrix MetaFrame environments, PS driver for Mac OS X v 10.2.8, 10.3, 10.4
Recommended system requirements	
Macintosh/Windows	Mac OS X v 10.2.8, 10.3, 10.4: 1 GHz PowerPC G4, 256 MB, 512 MB available hard disk space/Microsoft® Windows® Vista™, 2000, XP Home, XP Professional: Pentium IV, 3 GHz, 1 GB RAM, 2 GB available hard disk
Dimensions (w x d x h)	HP Designjet Z6100/Z6100ps 42-inch Printer: 1970 x 700 x 1350 mm/77.5 x 27.5 x 53 inches HP Designjet Z6100/Z6100ps 60-inch Printer: 2450 x 700 x 1350 mm/97 x 27.5 x 53 inches
Weight	HP Designjet Z6100/Z6100ps 42-inch Printer: 119 kg/262 lb HP Designjet Z6100/Z6100ps 60-inch Printer: 151 kg/333 lb
What's in the box	HP Designjet Z6100/Z6100ps 42-inch Printer: Printer, printheads (4 x 2 colours), introductory ink cartridges ⁴ , maintenance cartridge, HP Heavyweight Coated Paper sample roll (42 inch x 25 ft), stand & basket (42-inch), spindle (42-inch), maintenance kit, 3 inch spindle adaptor kit, quick reference guide, setup poster, startup DVD, customer service guide, power cord; HP Designjet Z6100/Z6100ps 60-inch Printer: Printer, printheads (4 x 2 colours), introductory ink cartridges ⁴ , maintenance cartridge, HP Heavyweight Coated Paper sample roll (42 inch x 25 ft), stand (60-inch), take-up reel (60-inch), spindle (60-inch), maintenance kit, 3-inch spindle adaptor kit, quick reference guide, setup poster, startup DVD, customer service guide, power cord
Environmental ranges	
Operating temperature	5 to 40° C/41 to 104° F
Recommended operating temperature	15 to 35° C/59 to 95° F
Storage temperature	-25 to 55° C/-13 to 131° F
Operating humidity	20 to 80% RH
Acoustic	
Sound pressure	Active: 51 dB(A), standby: 38 dB(A)
Sound power, active	6.8 B(A)
Power consumption	
Maximum/PowerSave/Off	350 watts/23 watts/0.4 watts
Power requirements	Input voltage: 100 to 127 VAC (+/- 10%), 4 amp; 220 to 240 VAC (+/- 10%), 2 amp; 50/60 Hz (+/- 3 Hz); voltage autorange
Certification	
Safety	USA and Canada (CSA certified), EU (LVD and EN60950-1 compliant), Russia (GOST), Singapore (PSB), China (CCC), Argentina (IRAM), Mexico (NICYE)
Electromagnetic	Compliant with Class A requirements, including USA (FCC rules), Canada (DoC), EU (EMC Directive), Australia (ACA), New Zealand (MoC), China (CCC), Japan (VCCI), Korea (MIC), Taiwan (BSMI)
Environmental	Energy Star, EU WEEE and RoHS Directives
Warranty	One-year limited hardware warranty; 8-hour, 5 days a week phone support

¹ Mechanical printing time. Measured on a HP Designjet Z6100 60-inch printer.
² Expandable to 512 MB through a 256 MB Designjet-qualified DIMM.
³ ±0.1% of the specified vector length or ±0.1 mm (whichever greater) at 23° C (73° F), 50-60% relative humidity, on E/A0 printing material in Best or Normal mode with HP Matte Film.
⁴ Introductory cartridges are shipped as a start-up kit.
